

Competitive Biotechnology: Advanced Biologics Manufacturing and Closing the Deal: Joint Ventures and Partnerships

The Sixth European Biotechnology Symposium
Radisson SAS Scandinavia Hotel Copenhagen
November 13 – 15, 2005

Call for Poster Presentations

The Sixth European Biotechnology Symposium is calling for abstract submissions for consideration as poster presentations during this symposium.

Only topics related to:

- 1) upstream and downstream bioprocessing
- 2) biomanufacturing
- 3) discussions of interesting bio-venture financing or partnering models will be considered.

Accepted poster presenters will be positioned in the poster area, in the foyer, adjacent to the exhibit hall, and will be given the opportunity to display their material during the exhibit hall hours. Poster presenters would need to be available at their posters to explain their papers, interface in discussions and answer any questions which the delegates may have.

Submissions would need to be relevant to the symposium and will be accepted for consideration based on the merits of the abstract. **To submit a poster for consideration, please send the title of the poster (10 word limit) along with an abstract (200 word maximum).** Be sure to include your contact information with your submission.

Accepted posters will not only be able to present their poster presentations, but in addition, they will have full access to the entire symposium proceedings and networking events. They will receive a delegates badge, conference materials, and they may participate at all sessions, lunches, breaks and evening receptions.

The cost for being a poster presenter, and having full access to the symposium is \$500.00. Do not send the \$500 fee at the time you submit your poster. Once your poster is approved you will be notified and payment will be accepted. The deadline for submitting an abstract for consideration is Friday September 30, 2005, and is predicated on space availability.

Please note: Poster presentations may not be used as exhibit displays or for marketing purposes. They are intended to be scientific and educational. All posters are subject to approval by show management.
