best practices for better outcomes

"A workforce of knowledgeable health professionals is critical to the application of health practices to prevent disease and promote wellbeing."

Institute of Medicine, 2010

Dear Colleague,

The *Academy of Women's Health* invites you to support our effort to meet the healthcare needs of women by keeping the professional community of physicians and other healthcare providers informed and up-to-date about *best practices for better outcomes* in women's health. We are pleased to present **Women's Health 2015: The 23rd Annual Congress** on April 16-19 in Washington, DC. Nearly 1,000 physicians and other healthcare providers are expected to attend.

Recognized as the most comprehensive interdisciplinary conference focused on women's health across the lifespan, the Congress features top clinicians, researchers, and educators sharing the most recent research and its application to patient care, along with the most current information in diagnostics and therapeutics.

The Congress is presented by the *Academy of Women's Health*, its peer-reviewed *Journal of Women's Health*, and VCU Institute for Women's Health. For over two decades, the generous support received from public agencies, foundations, nonprofits, and corporations has helped to sustain the mission of the Congress and to assure that it meets the needs of healthcare providers and leaders across disciplines, specialties, and practice settings.

Please see the attached **Supporter & Exhibitor Opportunities**, each with a range of important benefits for your organization. We would also be happy to customize a role that best features your work.

We look forward to hearing from you.

Many thanks,

A handwritten signature in black ink that reads "Karla".
